Art Unit: 1652

DETAILED ACTION

This application is a 371 of PCT/JP00/01608.

The preliminary amendment filed December 21, 2001, amending the specification, amending claims 6, 8, 12-13, 15, 17-18, and 22 and adding claims 23-48, has been entered.

Claims 1-48 are pending.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 10, drawn to a sorbitol dehydrogenase.

Group II, claim(s) 6-9, 11-18 and 23-40, drawn to DNA encoding a sorbitol dehydrogenase, vector comprising said DNA, transformant comprising said DNA and a method of producing the sorbitol dehydrogenase.

Group III, claim(s) 19 and 41-42, drawn to a method of producing L-sorbose.

Group IV, claim(s) 20-21 and 43-46, drawn to drawn to a method of producing 2-keto-L-gluconic acid.

Group V, claim(s) 22 and 47-48, drawn to a method of producing L-ascorbic acid.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Application/Control Number: 09/926,163

Art Unit: 1652

The technical feature linking Groups I-V appears to be that they all relate to a sorbitol dehydrogenase.

However, Hoshino et al. (from PTO-892) teach a sorbitol dehydrogenase that can be construed as a polypeptide comprising an amino acid sequence of SEQ ID NO:I wherein one or more amino acid residues have been deleted, substituted, inserted, added or modififed.

Therefore, the technical feature linking the inventions of Groups I-V does not constitute a special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the prior art.

The special technical feature of Group I is a sorbitol dehydrogenase.

The special technical feature of Group II is a DNA encoding a sorbitol dehydrogenase, vector comprising said DNA, transformant comprising said DNA and a method of producing the sorbitol dehydrogenase.

The special technical feature of Group III is a method of producing L-sorbose.

The special technical feature of Group IV is a method of producing 2-keto-L-gluconic acid.

The special technical feature of Group V is a method of producing L-ascorbic acid.

Accordingly, Groups I-V are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

Also, Under 37 CFR 1.475 (d), a national stage may not relate to multiple products or multiple <u>processes</u> in one application.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yong Pak whose telephone number is 703-308-9363. The examiner can normally be reached on 8:00 A.M. to 4:30 P.M weekdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapu Achutamurthy can be reached on 703-308-3804. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9306 for regular communications and 703-872-9307 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0196.
